

SHORT INTRODUCTION

A day of mars 2000 in Banepa area, one hour by bus far from Kathmandu, the capital of Nepal, we discovered a school, along the path, without windows, with mud on the ground, without blackboard, with precarious chairs and table. This establishment with earth walls looked like a chicken cage, but inside they were children, in half-light.

A few weeks after, in Chitwan area, five hours far from Kathmandu by bus, we discovered two schools in jungle. I drew up same report: unhealthy place, lack of means, and poor children inside. And in all Nepal same situation occurred.

The necessity to bring children some light, means knowledge, and health facilities, with humanity, was evident. HUBLO, "Humane, Blackboard & Light Organization", was born.

With knowledge and good health, children should acquire insurance, blossoming, and maturity. Thus, they will contribute positively to their future society. We also expect they will become real citizens, those who are recognized through their rights.

In Nepal, as in any other parts of the world the children are the future of the society. We can help them. *"Enjoy education, take care of your health, open your mind"* are our main messages to them.

Helping HUBLO, you will enlighten the future of the children in this part of the world, without any kind of discrimination of races, caste, skin colour or religion. HUBLO doesn't practise any proselytise.

Thank you for you generosity of heart and mind.
Thank you to share this challenge with us, to help us to realize our humanity's duty.

The coordinator Alain LAVILLE. Coordinator HUBLO Nepal.

SOME CONCRETE REALISATIONS IN NEPAL SUPPORT FOR EDUCATION AND HEALTH

Δ BALAJU (KATMANDOU PERIPHERY)

- School extension: two classrooms were built for a better distribution of the children and primary education and toilets.
- Literacy program for ladies.

Δ DHAMLI SCHOOL - PIPPLE 9 - CHITWAN NEPAL CHEPANG COMMUNITY .

- First stage: renovation of school building.
- Second stage: payment teacher's salaries and guardian.
- Third stage: we brought water supply, toilets.
- Fourth stage: health camps, hygiene prevention.

Δ DHODENI ANNAPURNA

- First stage: census to know how many children are not going to school (around 60 in this area).
- Second stage: old school demolition.
- Third stage retaining wall construction.
- Fourth stage: building new school.

Δ THAPREK 7 TANAHUN DISTRICT

- Construction of building: 11 rooms + water tank+ toilets entirely with tiles.
- Prevention: oral health care for 320 students.
- Scholarship.

Δ DENTAL CAMPS

- We oorganized dental camps (extractions and prevention) in various villages, various schools or orphanages providing free service.
- Prevention: Screening for children, teeth brush and paste were distributed. We taught about the art to brush teeth, about the digestion process and the real role of the teeth. A final report was sent to each school for recommendations and advices.

Δ SURGERY:

- We provided full support for needed people in different hospitals here in Kathmandu: SGNHC (cardiac mechanical valves), MODEL, NOH (orthopaedic), Sankhu Hospital etc. Some surgery operations are major operations and were successful.

- We are now associated with Dr Raamesh KOIRALA and Dr Anil in "PT INR Mobil clinic" concerning people who got surgery and new mechanical heart valves.

OUR OBJECTIVE

HUBLO NEPAL is focusing on education and health fields, providing: new classrooms, new schools, toilets, financial support for the teachers, sponsoring for children, medical follow-up for populations like "CHEPANG" and financial and human support for surgery. Being acquainted with the local difficulties (anaemia, poverty, orphans children) we offer shelter in Kathmandu: lodging, feeding, scholarship are guaranteed by our association. The children get private sponsor (1/1). We also focus on hygiene. HUBLO is mainly concerned by "lower and out castes children" suffering from discrimination, coming from remote areas, or suffering due to conflict.
